BRAND GUIDELINES

FINAL ESSENTIALS / CLEAN VECTOR MASTER / 4K

Canonical geometry

One bowl. Two letters.

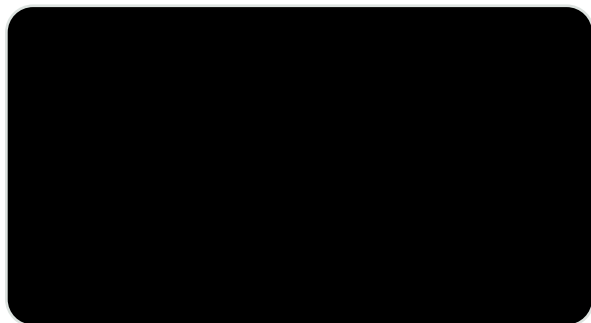

The q reuses the exact a bowl path and adds only the descender extension.

LOCKED CONTROLS

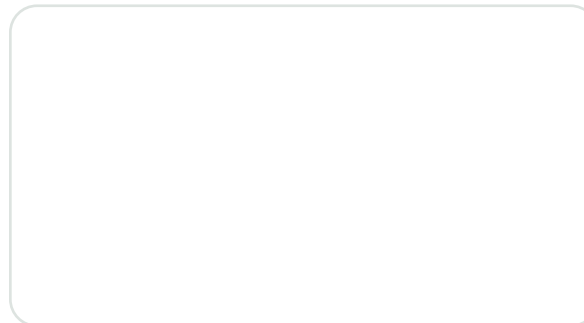

- Same a/q bowl path
- Same inner terminal
- Same opening and gap
- Same baseline
- q descender only

Approved variants and colours

ARQ BLACK

#000000

ARQ WHITE

#FFFFFF

ARQ PHTHALO GREEN

#0B6B50

White on Phthalo Green is preferred. Green on black is for the logo mark, not small interface text.

Clear space and minimum size

Minimum clear space: 1x on all sides. 1x = 48 master units.

MINIMUM SIZES

Wordmark

64 px / 18 mm

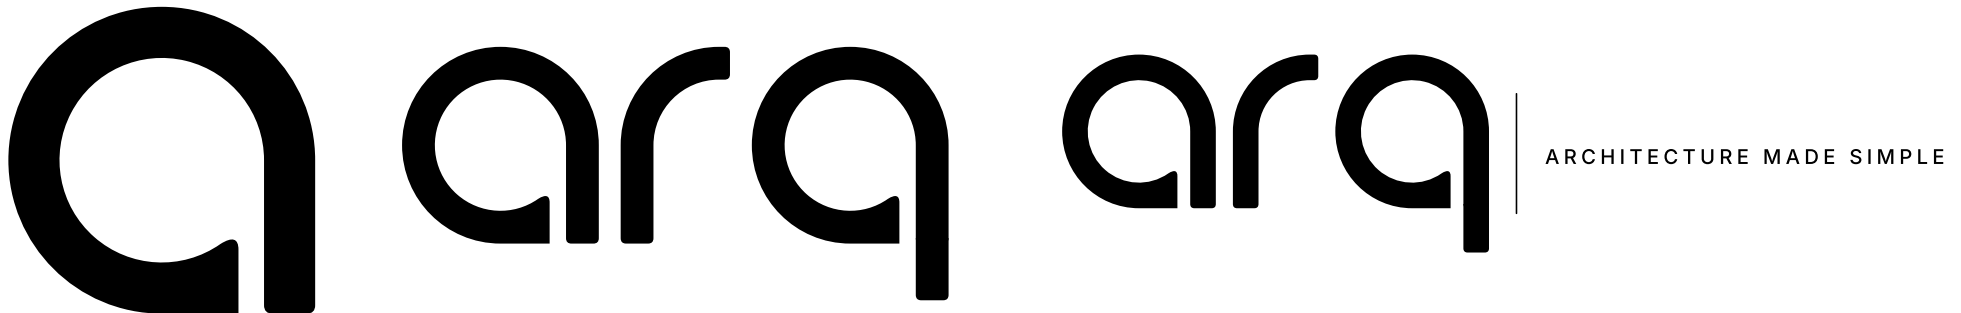

Symbol

24 px / 7 mm

Tagline lockup

360 px / 90 mm

Use the ClearSpace PNGs in Canva and social layouts. Use Tight PNGs only when the layout controls spacing.

Background and incorrect use

BLACK ON WHITE

WHITE ON BLACK

WHITE ON GREEN

DO NOT

- × Stretch or compress
- × Crop the q descender
- × Add shadows, glows or outlines
- × Place on busy, low-contrast backgrounds
- × Change the matched a/q gap
- × Retype the wordmark
- × Use unapproved colours
- × Rebuild or move the tagline divider

Digital, web and app

SVG

Canva, Figma, websites and scalable UI

RGB PDF

Presentations and placed digital artwork

4K PNG Tight

Controlled layouts and precise placement

4K PNG ClearSpace

Canva, social and safer general placement

WEB

Favicon, PWA icons, maskable icon and manifest

APP ICONS

1024 px black and Phthalo Green source icons

HTML example:

```

```

Print and production

CMYK PDF

Generic DeviceCMYK vector for print vendors and signage.

SVG / RGB PDF

Use when the vendor confirms support and manages colour conversion.

4K PNG

Use only when the workflow cannot accept vector artwork.

PRODUCTION CHECK

- Use vector artwork where possible
- Keep the q descender visible
- Proof Phthalo Green before a large run
- Do not add effects or outlines
- Ask the printer for the required ICC profile

The supplied CMYK values are a starting conversion.
Final colour varies by stock, ink, press and ICC profile.

File map and final status

00_GUIDE	Guidelines, quick reference and README
01_VECTOR	Clean SVG and RGB vector PDF masters
02_4K_PNG	Tight and clear-space transparent exports
03_WEB	Favicon, PWA, maskable icon, manifest and OG image
04_APP_ICONS	1024 px app icon source files
05_PRINT	Generic CMYK vector PDFs

FINAL STATUS: APPROVED FOR HANDOFF

Exact shared a/q bowl path • clean low-node vectors • matched gaps • no clipped guide artwork • 4K exports verified
